*The Higher Education landscape  
is changing, and changing rapidly*

National Systems of Tomorrow  
*How are they developed?*

World Class Universities  
*How do they make a difference?*

Old Universities: Rejuvenating  
New Universities: Achieving Excellence  
*How do they do it?*

**Visions, insights,  
experiences,  
challenges**

...

**...in 10 working days**

# What is the Summer Institute

- ◆ A unique learning experience for aspiring/practising leaders in institutions and ministries.
- ◆ Unusual opportunities to interact with experts about global, systemic and institutional perspectives for the future of higher education.
- ◆ International and institutional experts as Resource Persons.

## Programme

A comprehensive array of innovative ventures,  
providing perspectives and insights into:

- ◆ Global Trends
- ◆ System Governance
- ◆ Institutional Management
- ◆ Student Learning Experiences
- ◆ Research Excellence
- ◆ Knowledge Exchange
- ◆ Fundraising and Networking
- ◆ Branding and University Relations
- ◆ Accountability and Autonomy
- ◆ Sustainability

## Who should join

- ◇ Aspiring leaders in higher education institutions
- ◇ Policy-makers
- ◇ Administrators in ministries

## Why participate

- ◇ To understand world trends in higher education
- ◇ To learn from visionary leaders and experts
- ◇ To investigate success stories in Asian higher education, based on authentic cases
- ◇ To explore concepts and approaches for institutional leadership
- ◇ To join a network of peer higher education leaders

## Learning mode

- ◇ Interactive lectures
- ◇ Sharing and Group Work
- ◇ Site visits
- ◇ Knowledge products

## Requirements of participation

- ◇ A first degree
- ◇ A level of English for full participation

## How to apply

- ◇ Online application and submission via <http://www.fe.hku.hk/hesi>
- ◇ Attach a 1-page letter outlining the knowledge product you want to develop through the programme

## At the end of the Institute

- ◇ Participants will receive a certificate of participation
- ◇ Participants may engage in the Faculty of Education's projects.
- ◇ Participants will be eligible for exemption from relevant courses offered by HKU

## Fees

- ◇ Registration fee: USD4, 000
- ◇ Accommodation and meals at participants own cost

# Testimonial

- ◆ I had a great experience during the 10-day event of Summer Institute (SI), held at HKU. I have learned many things, both academic and cultural aspects. SI is a good program, especially this 5th one which trained the Higher Education leaders to consider about the future aspects and approaches of education and the future promise for our younger generation, as the world is getting more compact, but high competition. I find that exchanging backgrounds and exchanging facing problems and practices from multinational participants is a good model of learning, as some countries can have similar challenging, just before and after.

--- Participant, 2017

- ◆ I have learned a lots from summer institute. This is a real academic center for people to learn and gain knowledge to create or innovative on the education for tomorrow. It is great to know that where we are and where the world are. So which way we are going to move on to get ready for tomorrow that no one knows exactly what will happen.

--- Participant, 2017

- ◆ I would like to say I was fortunate to participate in such a productive and inspiring seminar; HKU Summer Institute 2017. What I first most experienced positively was what I have learned on how the program was organized and run. I do appreciate the HKU cross-sectional collaboration where the heads and highly experienced faculty work together for their shared goals, making HKU Summer Institute successful and great. Secondly, I learned a lot not only the knowledge and skills they shared but also their presentation and facilitation skills.

--- Participant from Cambodia 2017

- ◆ I have a great 10 days experience at Summer Institute to learn and share knowledge to each other that from different countries and cultures. The most valuable information from the top line of the faculties, administration office, students activities and so on at HKU. As a wonderful example on the environment at HKU with advance technology, mind set and green environment. In addition, I also enjoy the practice of making a camera after we finish lecture. Moreover, the knowledge product is a great practice to get to know the need or plan on each country

--- participant from Laos 2017
