

Course Description

MEDD6097 Themes and Approaches in the Field of Comparative Education

Course description	
<p>This course will introduce students to the history and nature of comparative education as a field of enquiry. It will note the principal dimensions of the field as conventionally defined in the literature on the topic, and will consider some variations in emphasis in scholarly communities and other actors in different parts of the world. The course will also consider the nature and contents of some key vehicles for publishing comparative education research, including journals, books and reports by international agencies. The course will conclude with an overview of the nature and directions of the field.</p>	
Course objectives	
<p>By the end of the course, students will have a stronger understanding of the range of approaches to the field of comparative education, and of dominant paradigms and units for comparison by scholarly communities and agencies in different parts of the world. This will include:</p> <ul style="list-style-type: none"> - the orientations and biases of scholars in different language groups; and - the emphases of a number of international agencies. 	
Course learning outcomes (CLOs)	Aligned programme learning outcomes (PLOs)
1. Review the forces that shape the field of comparative education, noting variations in different parts of the world	PLOs 1, 2
2. Identify, analyse and conceptualise the perspectives and approaches of different actors and organizations in the field of comparative education	PLOs 1, 2
